Lansing's Westside includes more than 80 businesses 12,000 residents, beautiful neighborhoods and historic homes, major employers like Lansing Community College and Sparrow Hospital. It is one of the most socio-economically and ethnically diverse areas in the region and boasts the highest concentration of locally-owned businesses, with a variety of dining and entertainment options. From the 1920's until the 1970's, Lansing's Westside was a major shopping and dining destination. Since 2003, residents and businesses have been working together to revitalize the commercial and residential areas along and near Saginaw Street and have implemented several beautification, promotion and business recruitment projects. Our work continues with material such as this guide to your local Westside Commercial Association member businesses.
